Position Summary			
<p>The incumbent of this position will play a key role in delivering the National Disability Insurance Scheme (NDIS) Partners in Community (PIC) Early Childhood Early Intervention (ECEI) service in the Ovens Murray regional area of Victoria. The Early Childhood Coordinator will be responsible for working closely with children and their families, undertaking developmental assessments to support the child’s development, provide short term early childhood early intervention, and detailed reporting, ultimately improving the child’s capacity to fully participate in life.</p> <p>Over the course of a year, the team of Early Childhood Team will support hundreds of families in the Region access the NDIS or other appropriate services. This is a job for individuals looking to be at the frontline of a major change that will result in increased funding and more flexible support for children and adults with disability.</p> <p>The NDIS is a major national reform with an insurance based approach. It is a new way of providing support for eligible people with permanent and significant disability, their families and carers, via <b>individualised</b> services based on a client’s level of need. The PIC enables the Scheme to be implemented at a local community level. Merri Health (Merri) is the appointed PIC for the Ovens Murray region in ECEI to ensure children with a developmental delay or disability, and their families and carers, are well supported by a flexible and responsive range of supports. Merri is the first contact point for families with children aged birth to six.</p>			

# Position Description

Reporting to the Team Leader, The Early Childhood Coordinator will form part of a Team that will play a key role in:

- Assisting children (0-6) with developmental delay or disability, their families and carers to build and pursue their goals, exercise choice and control and engage with the NDIS, and;
- Ensure that children (0-6) with developmental delay or disability are supported in their local communities and mainstream services by building greater awareness and social inclusion for children with developmental delay or disability and their families.

Early Childhood Coordinators are responsible for delivering the NDIS approach in Ovens Murray and supporting families to maximise their capacity to function in our society and are required to have qualifications in Speech Therapy, Occupational Therapy, Psychology, Social Work, Early Childhood Education, or Physiotherapy. Importantly, they will work to drive the support according to ECIA Best Practice Guidelines, support the key worker model and hold a strong commitment to holding the safety and security of children paramount while working within a family centred framework.

In line with the community-focused nature of the PIC ECEI service, the Early Childhood Coordinator will play a leading role in developing awareness about how the NDIS will support children with development delay or disability within the scope of their role. The Early Childhood Coordinator plays a pivotal role in connecting with parents, families, early intervention service providers, education and health services and other mainstream providers. They will also play a significant role in communicating what this change means at an individual level for families as part of their planning responsibilities.

Training for the Early Childhood Coordinators will be provided and ongoing supervision and support will also be provided.

## Position Accountabilities

### Responsibilities

- Provide Early Childhood Early Intervention (ECEI) Services to children aged 0-6 with developmental delay and / or disability in line with ECEI best practice.
- Undertake formal and informal developmental screenings / assessments for children 0-6
- Design and implement Transdisciplinary Therapy Plans for children aged 0-6 who have complex support needs that are based on family goals and needs.
- Provide ECEI Services in the child's natural settings such as the home environment, childcare centres, kindergarten etc.
- Provide supports and strategies to families to enable them to follow through with intervention within the home.
- Provide supports, education, and strategies to educators to enable them to continue to provide intervention within their relevant settings in an inclusive manner.
- Manage a case load of between 20 and 40 families.
- Provide referrals to universal services to connect children with a disability or development delay and their families to external supports, services and groups
- Support families and the broader community in understanding the NDIS, access pathways, and other services available in the community.
- Engage in the NDIS planning process with families which includes collaborating with the family to:
  - collate information relating to the child's developmental needs and the functional impact these have upon the family,
